PERSONAL PROJECTS

Sorting Visualizer (2022)

- The sorting visualizer helps us to visualize the working of different Sorting Algorithms like Bubble Sort, Selection Sort , Insertion Sort , Merge Sort. It is created using REACT.

News Media (2021)

- It is news website that shows news articles based on different categories like Sports, Finance , Cryptography and Entertainment. It is made using Bootstrap and Nodejs and using the newsapi.org API .

Shopping List (2021)

- It is a shopping list made using React JS and basic HTML and CSS. We can type the name of the item and can add it either to our cart or wish-list. We can also move items from the wish-list to the cart and vice-versa and also delete items from the list.
